

# TOTALLY MATHS MARCH 2022

IES Profesor Pablo del Saz  
(Marbella)

2ND MOBILITY

ERASMUS+

WE WE RECEIVED OUR  
GUESTS THE 19TH MARCH

ON SUNDAY 20TH  
WE VISITED RONDA  
AND WORKED A  
SCAVENGER HUNT  
THERE TO GET TO  
KNOW BETTER THE  
PLACE AND OUR  
PARTNERS.

# MONDAY

- We had a presentation at school, including a visit to some regular lessons, teambuilding activities in the gym and a scavenger hunt around Marbella with Maths/geometry contents

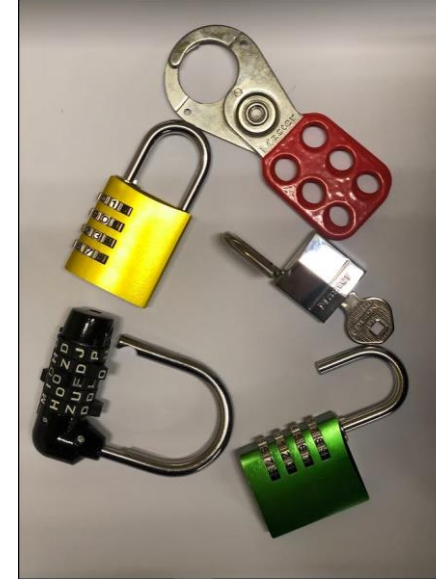

# TUESDAY

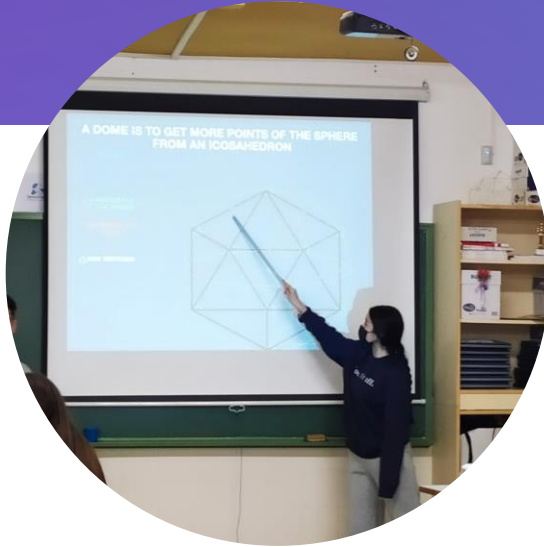

- We visited the city of Granada and its Alhambra, where we did a scavenger hunt with the mosaics in it as an application of geometry.

- We started Wednesday with a virtual breakout, in which we mixed Geometry and Maths games. The objective was to open all the locks of a box, using their knowledge of Maths to find the right combinations.

# WEDNESDAY

Afterwards came the real challenge: teaching Maths to peer students in the hosting school. And we all think it was a very successful activity in many ways.

# SPANISH LESSON

BELGIAN LESSON

IRISH LESSON

- And to celebrate it, we had a fraternity meal in the school, where students and teachers shared a delicious and typical paella. What a day!

# THURSDAY

We started working on an evaluation of the creation of the Maths lessons, to enjoy afterwards a robotics and programming lesson by students from the hosting school

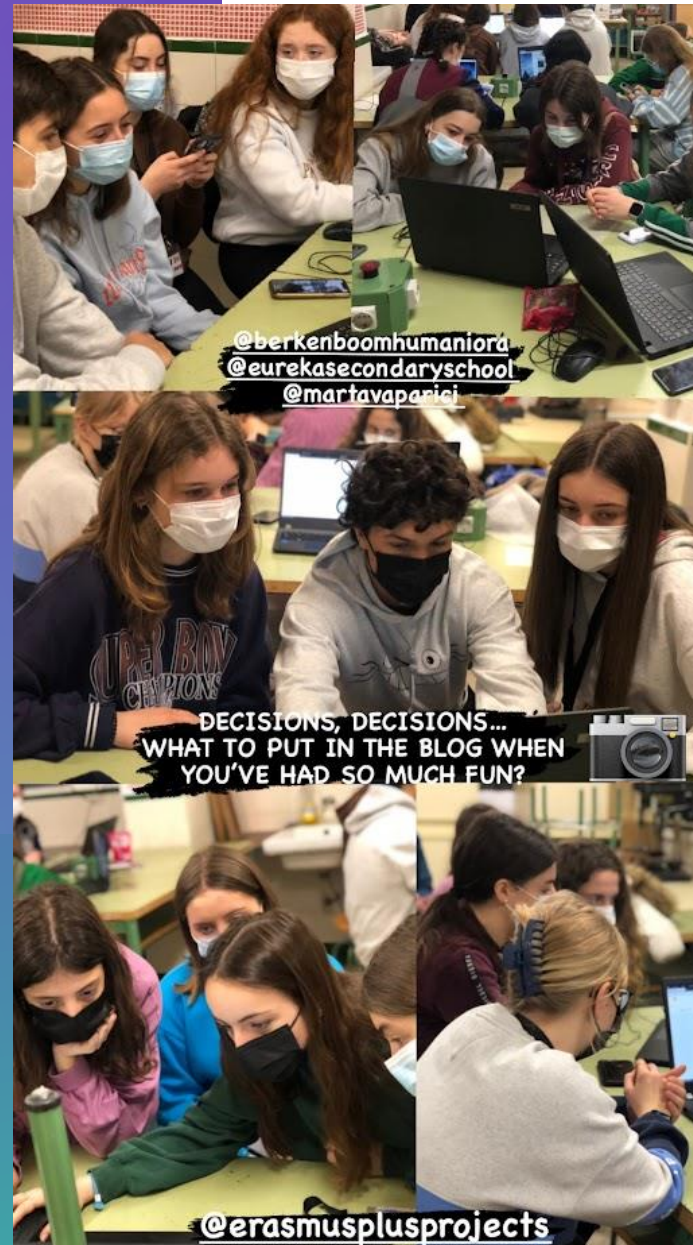

And then we went to the Town Hall where we were received by educational authorities, to work, later on, a scavenger hunt in the city of Malaga

# FRIDAY

THE DAY STARTED WITH SOME  
WORK ON THE BLOG AND THE  
EVALUATION OF THE WEEK

And then came the fun: first  
on a boat in Puerto Banús,  
and then at the farewell  
party

**THERE'S NO  
BETTER WAY TO  
LEARN MATHS  
THAN TEACHING  
MATHS**

Co-funded by the  
Erasmus+ Programme  
of the European Union
